Chapter I

AFTER THE GLOBAL CRISIS: AN UNEVEN AND FRAGILE RECOVERY	1
--	----------

A. Recent trends in the world economy	1
1. Global growth and international trade	1
2. Recent trends in primary commodity markets	7
B. Global recovery and rebalancing: current situation and prospects	11
1. Developing countries at the vanguard of a potential recovery	12
2. Coping with the vagaries of unfettered global finance	15
3. United States: former global growth engine facing headwinds	17
4. Europe: instability and divergence	18
C. The need for global coordination and caution in withdrawing macroeconomic stimulus	21
1. Fears of inflation, risks of deflation	21
2. Does the G-20 process work?	22
3. Are global imbalances set to widen again?	23
D. The task ahead: reforming the global monetary and financial system	24
1. The exchange rate problem	24
2. Stabilizing the financial system	25
E. Outlook	27
Notes	28
References	29

Annex to chapter I

Credit Default Swaps	33
-----------------------------------	-----------

Chapter II

POTENTIAL EMPLOYMENT EFFECTS OF A GLOBAL REBALANCING	39
A. Introduction	39
B. Rebalancing growth in the United States	41
1. Relationship between the current-account balance and consumer demand in the United States.....	41
2. United States consumption spending and imports.....	43
C. Rebalancing growth in China: potential employment effects	47
1. Introduction	47
2. How dependent is Chinese employment on exports?.....	47
3. Household consumption and the share of labour compensation in total income	48
4. Prospects for increasing household consumption in China	53
D. The potential impact of a global rebalancing on trade flows and employment	56
E. Conclusions: the need for a global macroeconomic reorientation for growth and employment creation	62
Notes	66
References	69

Annex to chapter II

Simulation of the Trade and Employment Effects of Global Rebalancing: A Technical Note	73
---	----

Chapter III

MACROECONOMIC ASPECTS OF JOB CREATION AND UNEMPLOYMENT	77
A. Introduction: globalization and employment	77
B. The neglected role of aggregate demand growth for employment creation	80
1. The problem with microeconomic reasoning about the labour market.....	80
2. Macroeconomic trends are key to employment.....	82
3. Do macroeconomic trends matter equally in developing countries?.....	85
C. Beyond capital-labour substitution: wages from a macroeconomic perspective	88
1. The “price of labour” and employment	88
2. Productivity growth and employment	89
D. Productivity-oriented wage growth supports investment and innovation	93
E. Conclusions	94
Notes	95
References	97
